Visit our web site at www.saesections.org/fortwayne/ for program updates.

Mini Baja[®] consists of three regional competitions that simulate real-world engineering design projects and their related challenges. Engineering students are tasked to design and build an off-road vehicle that will survive the severe punishment of rough terrain.

Supermileage[®] competition provides engineering and technology students with a challenging design project that involves the development and construction of a single-person, fuel-efficient vehicle. Students have the opportunity to set a world fuel economy record and increase public awareness of fuel economy.

Couples' Night Event
Dinner Theatre "Born Yesterday"

Please reserve Saturday, May 3 on your calendar and plan to join your friends at our Couples' Night event for this year – the wonderful comedy play "Born Yesterday", presented at the Arena Dinner Theatre:

Some beauties are born to self-determination, others have it thrust upon them – some simply trip over it. A nouveau riche wheeler-dealer decides his trophy girlfriend needs some polish. What he gets is a comical comeuppance that throws a proverbial pie in the face of shady business and politics. Born Yesterday is Garson Kanin's celebrated 1946 comedy that ran for 1,642 Broadway performances, won every award available, became an Academy Award-winning movie and proved the words 'dumb' and 'blonde' are not synonymous.

We have held 48 tickets, so if you are planning to attend, it's not too early to let your company rep know. Watch for more details in upcoming mailings. The cost per couple is \$45 for both members and non-members for this event.

Join Us In April For...

Aluminum in the Transportation Industries

Dr. Richard L Klimisch, Vice President of The Aluminum Association

ASM/SAE Joint Meeting
Monday, April 14th at Don Hall's Guesthouse
